

BP Projects Under Consideration

On Aug. 4, the Board of County Commissioners held a public work session to discuss project ideas submitted by citizens for potential funding via use of BP settlement funds.

This list summarizes the projects that are moving on to the next phase of consideration for funding with BP monies or Penny IV potential funds, as well as projects that are being further researched.

Staff is currently validating the projects, their scopes and actual anticipated costs to bring back this information to the Board at a future meeting.

Doing Things For You!
