OFFICE OF HUMAN RIGHTS

Description:

The Office of Human Rights (OHR) provides the citizens of Pinellas County protection against discrimination in housing, employment, and places of public accommodation pursuant to local, state, and federal law. In particular, the office provides protection from discrimination based upon one's religion, race, color, age, sex, sexual orientation, national origin, or disabled/handicapped status. For persons employed within the Pinellas County Unified Personnel System, the office also provides protection from discrimination based on political affiliation.

The Office of Human Rights enforces two sections of the Pinellas County Code, "Employment Discrimination" (Division 2, Chapter 70) and "Human Rights" (Section 2.02(e), Article 2, Pinellas County Charter). The Office of Human Rights also has Work-sharing Agreements with the United States Department of Housing and Urban Development (HUD) and the United States Equal Employment Opportunity Commission (EEOC). These contracts provide reimbursement to the county for case processing, training and, in the case of HUD, for administration. The HUD Agreement provides additional funds for Special Enforcement Efforts such as hiring of expert witnesses and litigation costs.

Goals & Objectives:

- Employment:**
- 1) Close 120 Cases "Dual Filed" w/EEOC
 - 2) Reduce Inventory of Cases > 1 year old 50%

 - 2) Increase Mediated Settlement of "Cause Cases" 100% to Reduce Litigation Cost

Permanent F/T Positions	10	10	10	10	10

Analysis:

The FY14 budget reflects an increase of \$15,190 - or 1.6% - from the FY13 adopted budget. Budgeting for the line item "other charges and obligations" continues to increase (\$11,500.00 increase FY 14 vs. FY 13) due to the anticipated rise in number of contested cases for which an administrative hearing or civil action will be necessary. Additionally, additional funds were budgeted for local travel to allow for investigations under our new ADA gas assistance ordinance, and to conduct regular, periodic intake hours in St. Petersburg. Notwithstanding these increases, the proposed budget is just slightly below our FY 14 target of \$937,090, and remains \$19,750 below OMB's FY 13 target of \$956,520.

FEATHER SOUND COMMUNITY SERVICES DISTRICT

ACCESS TO CARE

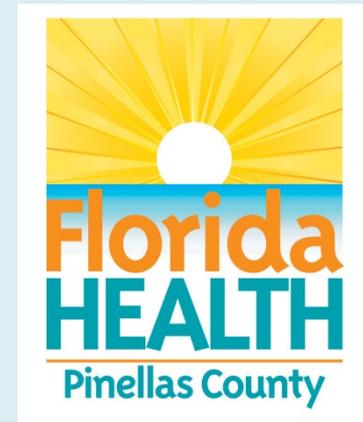

CHALLENGES

- The capacity of traditional safety net providers is decreasing
- Lack of true medical homes for many low income persons
- Poor access to dental care on the part of the low-income population, particularly the Medicaid population
- Greater need for behavioral health services
- Educating persons to use a primary care medical home when available rather than emergency rooms for primary care and an understanding the importance of preventive as well as acute care

ACCESS TO CARE

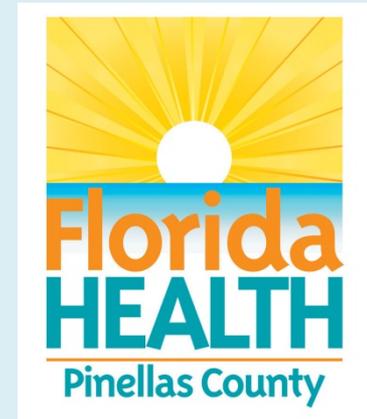

OPPORTUNITIES

- Diminishing resources have led to an increased emphasis on partnering among providers
- Managed care can be a vehicle to improve access to care, if implemented and managed properly
- There is increased recognition of the importance of good dental health on overall health
- The expanded scope of practice for Registered Dental Hygienists offers an opportunity to increase the provision of preventive dental care, the most cost-effective form of dental care
- Achieving National Public Health accreditation and Patient-Centered Medical Home recognition is necessary in order to accomplish goals

FY 2013-2014

Uncertainty in Funding Ahead

- Impact of Medicaid Reform
- Sequestration: estim. 5-7% reduction
- Reduction in State General Revenue
- Grants ending; CPPW, Seek.

Decision Package Details

While we expect to have adequate resources to accomplish most of the strategic goals outlined below, we have included in our decision package a request for an additional non-recurring \$70,000 **for one year only** to accomplish the process improvements required for our hiring process.

Our department and the organizations we serve have identified an urgent need to streamline our present hiring process to reduce the time and effort it takes to recruit for and select for a vacancy. Our department anticipates having the capacity and the resources to accomplish this task as a result of anticipated retirements at the end of FY14.

County organizations would greatly benefit if we could establish more expedient and less cumbersome hiring processes and practices before that time. The \$70,000 would allow us to pursue changes to expedite our processes and allow for just in time hiring. With the exception for upfront money to allow the system to be established, implemented and fully operational, we expect to absorb future costs within our existing budget.

Health Plan Information Sessions Scheduled

As you may know, the dispute between United Healthcare (UHC) and BayCare Health Systems persists. We continue to closely monitor the situation and aggressively explore our options so that we can continue to provide access to high quality, affordable health care for you and your family.

We know you have questions around matters concerning continuity of care, how out-of-network services will impact your wallet, how to find alternative providers, as well as other questions. To help you become a more informed healthcare consumer we have had several meetings with employees already and we are offering **11 more Information Sessions** around the county. There, you will have the opportunity to speak with representatives of UHC and of Human Resources' Benefits staff to better understand the in-network and out-of-network benefits.

The schedule of the sessions is attached. If you choose to attend a session, you can expect them to last approximately 45 minutes. You do not need to sign up for these sessions.

We will continue to post information online on the Human Resources home page - www.pinellascounty.org/humanresources. There you will also find video messages from Ken Burke, Bob LaSala, and me.

You can access information about your benefits or locate in-network providers at myuhc.com. United Healthcare member services can also help you find information about in-network providers. They can be reached at (888) 478-4752.

We will continue to send information about available resources, closely monitor the ongoing dispute, and work proactively to find long term solutions.
