Because of the financially distressed situation Pinellas County Government is going through many residents of Pinellas County would like to have the vote to reduce the number of Commissioners back to the original 5 members only. It is a know fact that Pinellas County due to the economy along with being too expensive to live or operate a business, many have move away. This does not warrant to have the number of Commissioners we have. Pinellas as a whole has been and still is making cuts to personnel and services. For many years, Pinellas County was properly represented with 5 Commissioners and it still can. Many residents have not seen the benefit to the increase of Commissioners.

Pinellas County residents are asking the Charter Review Commission to put it back to the voters in reducing the amount of Commissioners to 5. Help to be a part of flattening our Government and stop the waste of our tax dollars.
