

# IF A HURRICANE IS COMING... DO YOU KNOW WHERE TO GO FOR SAFE SHELTER AND HOW YOU WILL GET THERE?

Pinellas County Emergency Management and your local fire department can help if you need special assistance in evacuating for a hurricane. They can also help if you have a pet. Do not wait until it is too late for emergency workers to rescue you from your home.

**Call today to register for help (727) 464-3800**

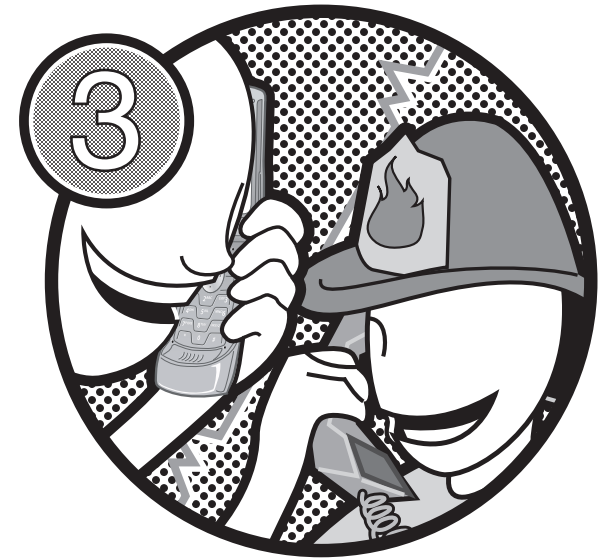

Call 464-3800 to get an application mailed to you.

Fill it out, sign it & put it in the mail.

Your local fire department will contact you.

## CAN YOU HELP SAVE SOMEONE'S LIFE?

Hurricanes can be very scary, especially for those who are frail, homebound, visually or hearing impaired, physically disabled or have difficulty understanding emergency information. Extra care is needed to be sure these individuals with special needs have emergency survival plans. While it is the responsibility of the individual or the caregiver to have a plan, you can still help by asking people you know if they have a plan. If they don't, encourage them to talk to their physician or call for special needs registration.
