The Pension Plan provides a guaranteed monthly benefit based on a formula that factors in your eight highest years of compensation and your total years of creditable service. An employee is vested in the FRS Pension Plan upon completing eight years of creditable service.
- [Investment Plan](#)
The retirement benefit is the value in the employee's account. There is no fixed benefit level. Your future retirement benefit can be greater or less than the Pension Plan benefit depending on the performance of your individual investment options. An employee is vested in the FRS Investment Plan upon completion of one year of creditable service.

After You Are Retired

Retirees are offered continuation of health coverage, prescription coverage, vision care, mental health coverage, dental care, and life insurance.
