Project Overview

Pinellas County Public Works, through the County's Capital Improvement Program, has replaced the floating docks at the Belleair Causeway Park Boat Ramp in Belleair Bluffs.

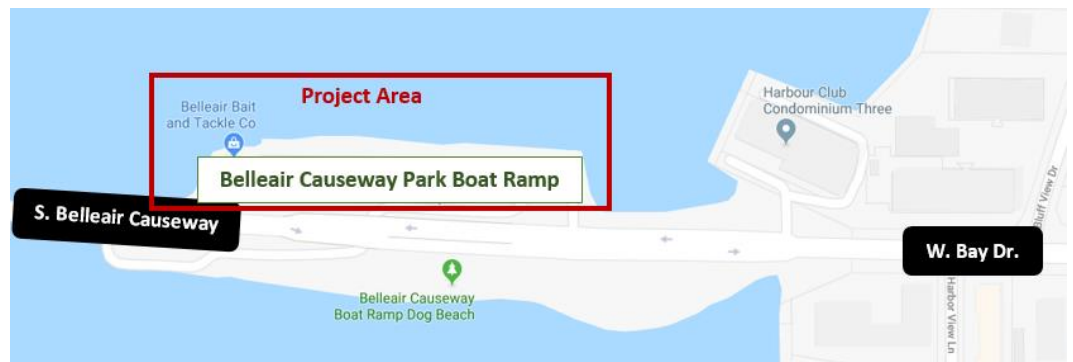

In addition to the new courtesy docks, the boat ramp offers 108 boat trailer parking spaces, 98 passenger car spaces, a fishing pier and 10 boat launching lanes. The boat ramp is open to citizens 24-hours a day, with portable restroom facilities on site.

Hurricane Irma damaged the remaining dock systems when the project was under construction. The damage delayed the completion of the project so that coordination with FEMA and dock fabrication could take place. Five additional docks were replaced as a result of the storm damage.

Project Schedule – Next Steps

- Design Start: September 2014
- Design End: September 2016
- Construction Start: November 2016
- Construction End: July 2017

This project was funded through the Penny for Pinellas program with additional funding from FEMA for the hurricane damage.
