Project Overview

Pinellas County Public Works, through the county's Capital Improvement Program, is making improvements at the intersection of NE Coachman Road (SR 590) and Old Coachman Road (CR 525) in Clearwater. The improvements will enhance pedestrian, bicyclist and motorist safety as well as support the efficient flow of motorist in the area by optimizing traffic operations to minimize congestion.

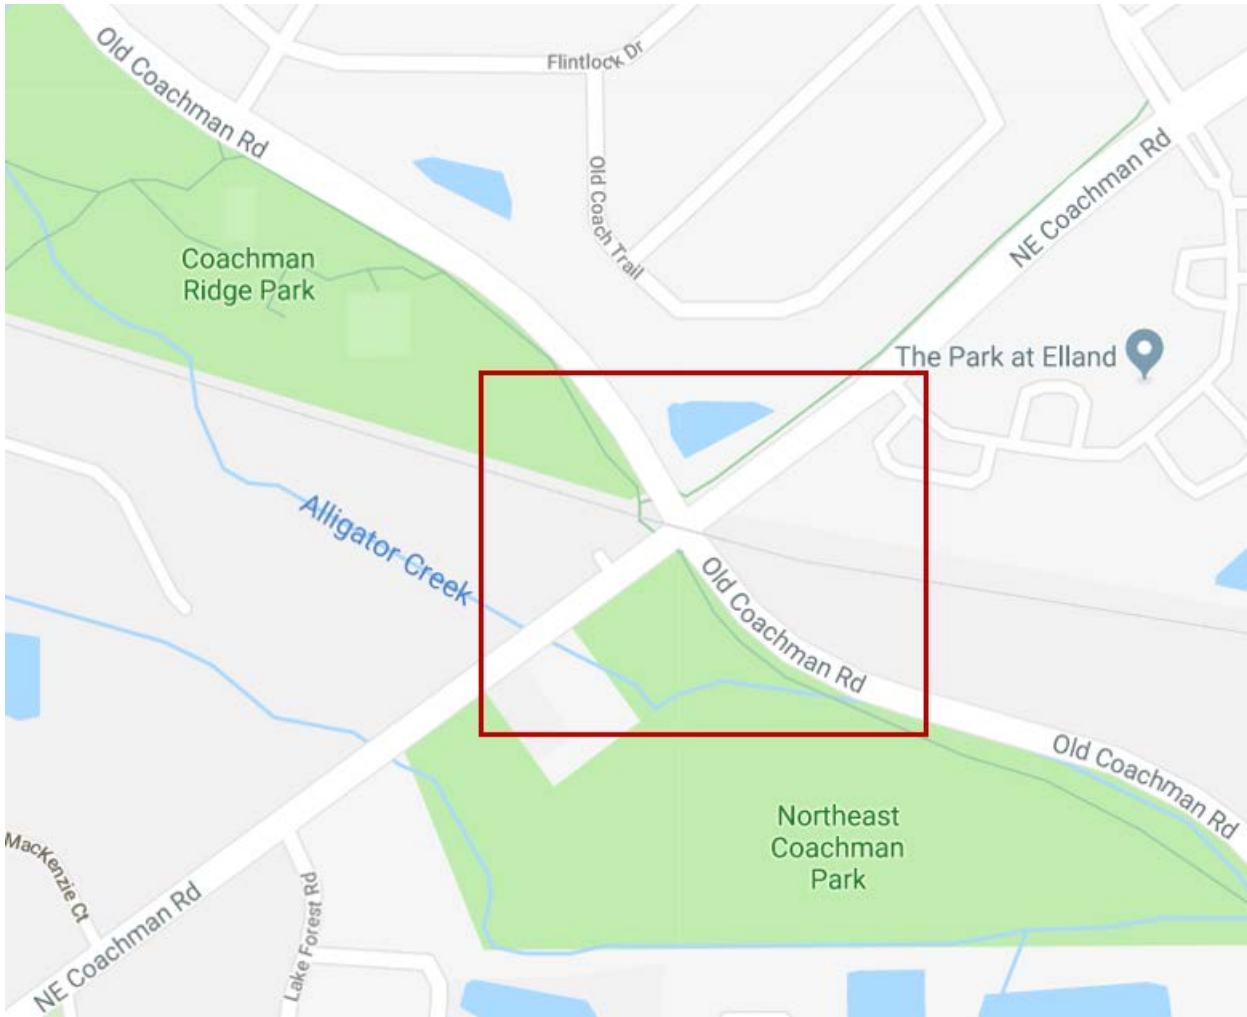

Improvements include roadway widening for the addition of left turn lanes on each of the four intersecting roadways, paved shoulders with bike lanes, along with the resurfacing, restoration and rehabilitation of the existing roadway. ADA-compliant sidewalks will be constructed along the roadway to connect to the Florida Department of Transportation's (FDOT) sidewalk project on NE Coachman Road (SR 590) and provide trail connectivity to the Duke Energy Florida and Ream Wilson Trails. The mast arm signals at the intersection will be upgraded to accommodate the new lane configuration and the railroad crossing arms will be replaced.

Project Schedule – Next Steps

- Design Complete: Spring 2018
- Construction Start: Fall 2018
- Construction End: Winter 2019

This project is funded by the Penny for Pinellas, the county's local infrastructure sales tax. Grant funding for the project is provided by a county incentive grant program agreement with FDOT.
