## Project Overview

Pinellas County Public Works, through the county's Capital Improvement Program and a state grant, is making safety and roadway improvements to the intersection of Sunset Point Road (CR 576) at N. Betty Lane, and new pavement surface from Douglas Avenue to Kings Highway in Clearwater. The project includes turn lane enhancements, the installation of mast arms and new pedestrian signals at the intersection, along with ADA-compliant sidewalks and curb ramps. Bike lanes will also be added along the roadway. The completion of the project will enhance pedestrian and bicyclist safety, and provide a more efficient flow of motorist. Additionally, a new bridge will be constructed over Long Branch Creek and, consistent with the county's watershed plan, the Lower Spring Branch bridge culvert will be replaced and channel enhancements will be made.

## Project Schedule – Next Steps

- Construction Start: December 2018 - February 2019
- Construction End: December 2020 - February 2021

*This project is partially funded by a grant from the Southwest Florida Water Management District (SWFWMD).*

Sunset Point Road (CR 576) Project Area

# Sunset Point Road (CR 576) at N. Betty Lane Intersection Improvements

## Additional Project Info

Segments of Sunset Point Road will be completely closed during construction and open to local traffic only. Some portions will be closed to all traffic due to the drainage culvert replacement.

Detour signs will direct traffic around construction. There may be temporary disruptions at individual driveways and an occasional restriction of traffic flow. The county's contractor will coordinate with each property owner in advance of impacting driveway access.
