Project Overview

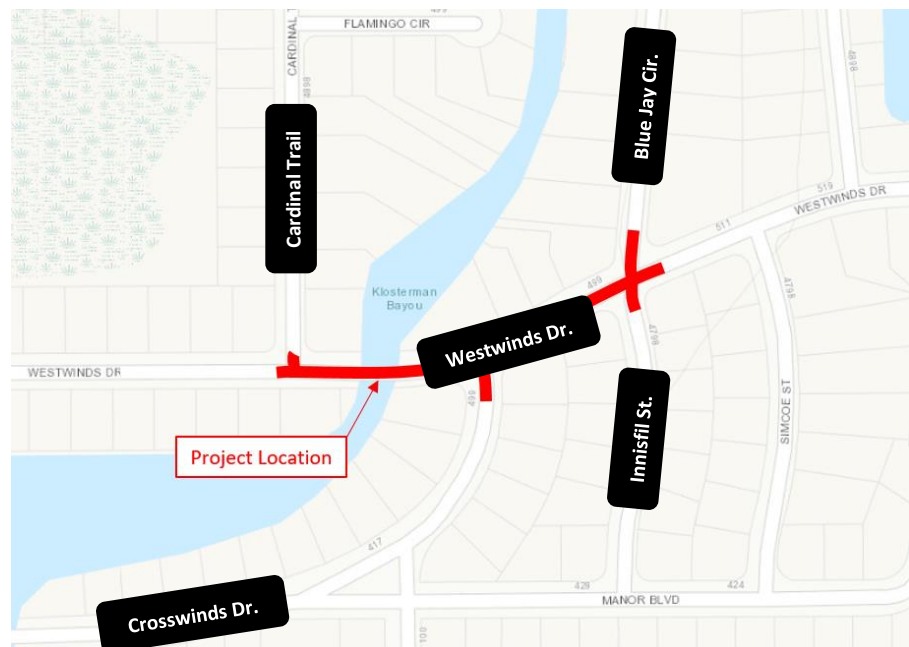

Pinellas County Public Works, through the County's Capital Improvement Program, is replacing the aging bridge on Westwinds Drive over the Westwinds Canal in Palm Harbor. The project also includes sidewalk connectivity in the vicinity of the bridge replacement. The existing bridge has substandard shoulder widths and barriers not meeting current structural design criteria. The proposed bridge will meet current design criteria and provide wider shoulders and raised sidewalks on both sides allowing for a safer pedestrian facility.

The project area includes roadway improvements along Westwinds Drive from Cardinal Trail to Crosswinds Drive and sidewalk connectivity along Westwinds Drive, Blue Jay Circle and Innisfil Street. Westwinds Drive will be closed to thru traffic between Cardinal Trail and Crosswinds Drive to facilitate bridge demolition and bridge construction. Access to driveways within these limits will be maintained at all times.

Project Schedule – Next Steps

- Design Start: December 2014
- Design End: April 2017
- Construction Start: December 2019
- Construction End: December 2020

This project is funded through the Penny for Pinellas program.
