

Pinellas County Utilities Introduces Its

Ultra Low Flow Toilet (ULFT) Rebate Program

Pinellas County Utilities, in cooperation with the Southwest Florida Water Management District, is offering financial toilet rebates to qualified Pinellas

County Utilities' water customers.

Rebates will be available to customers who replace their old high flow toilets with **low flow 1.6 gallon units**. Pinellas County will provide *up to \$100 for each high*

flow toilet replaced under the program. The rebates are being offered to single family residential, multi-family residential, and commercial customers.

The program goal is to replace 93,000 high flow toilets, which should produce *two million gallons per day of potable water savings over a five-year period*. The total project cost is \$13,531,500. If you are interested in participating in this valuable water conservation program,
