Where can I get free mulch?

Recycled mulch is available at the **20 locations** listed at left. The numbers correspond to the [map on page 4](#).

What is recycled mulch?

Tree branches, grass clippings, leaves, and other **yard waste materials are processed into mulch**. The free mulch is made available at convenient sites around the county.

How much mulch can I take at a time?

There is **no limit** to the amount of mulch a resident can take for free. Bring a pitchfork or shovel, and help yourself!

Why is free mulch provided?

Recycling yard waste into mulch **keeps usable material out of the landfill**, and provides a useful product for citizens. Mulch not only makes landscaping more attractive, but it also **saves water by conserving soil moisture**.

Is recycled mulch safe?

Yes. **Weed seeds, pest insects, and plant diseases are eliminated** using a natural heating and decomposition process prescribed by the University of Florida. The result is a high-quality landscaping product.
