

# Fertilizer Applicator License Requirement

## Information for Landscape Fertilizer Applicators in Pinellas County

All commercial and institutional applicators within Pinellas County must obtain the limited certification for urban landscape fertilizer application and display a Pinellas County vehicle decal. Complete the steps below to avoid violation of the Pinellas County Fertilizer Ordinance. For information visit: [www.pinellascounty.org/fertilizer](http://www.pinellascounty.org/fertilizer)

1. Complete a state approved training course such as the Green Industries Best Management Practices (GIBMP program website: <https://gibmp.ifas.ufl.edu> Note: there are no pesticide CEUs for the online course. If you need assistance with registration, please call the Pinellas County Extension at 727-582-2100.
2. Obtain the requisite Limited fertilizer license from FDACS by creating an account online and paying via credit card online to receive your fertilizer license within 24 hours at [aesecomm.freshfromflorida.com](http://aesecomm.freshfromflorida.com) Each applicator must have this license regardless of any other FDACS licenses held.
3. Receive your vehicle decal by emailing [watershed@pinellascounty.org](mailto:watershed@pinellascounty.org) to request an fertilizer affidavit and submitting the completed fertilizer affidavit to Pinellas County Watershed.
