

Operations Center Specialist 2

Category: Exempt
Pay Grade: E18
Job Code: 14637

To perform this job successfully, an individual must be able to perform the essential job functions satisfactorily. Reasonable accommodations may be made to enable individuals with disabilities to perform the primary job functions herein described. Since every duty associated with this position may not be described herein, employees may be required to perform duties not specifically spelled out in the job description, but which may be reasonably considered to be incidental in the performing of their duties just as though they were actually written out in this job description.

JOB SUMMARY

Performs professional technical work which requires expert level proficiency in providing Operation Center functions and activities that include receiving, prioritizing, documenting, and actively resolving customer incidents and requests to quickly assist customers with resuming their business tasks. An incumbent in this class is responsible for excellent customer service, pro-active incident management and monitoring, and timely notifications to impacted customers. Problem resolution may involve the use of diagnostic and service management tracking tools; use of adopted tools are used to record, track, and document the request, incident resolution, and problem-solving process, including all successful and unsuccessful decisions made and actions taken through final resolution. Other duties may include performing preventative maintenance and repair of various endpoint devices such as computer equipment, printers and peripherals, test fixes to ensure problem has been adequately resolved and perform post-resolution follow-ups to ensure user satisfaction and proper problem resolution.
